Red Lava Rock

It is a small to medium, volcanic rock and is available in a bright red color.

Pond Pebbles

Smooth multi-colored rock 1-3 inches in diameter. This is a great stone for fishponds, waterfalls, landscaping and highlighting flowerbeds.

Rainbow Rock

Smooth egg-shaped multi-colored rock, 3/4" to 1 1/2" in size. Great for landscaping, flowerbeds and pathways.

River Rock

A multi-shaped tan earth-tone rock ranging from 3/4" to 1 1/2" in size. This rock is ideal for beautifying the natural look in landscapes.

Rose Quartz

A striking red/pink crushed rock 1/2" to 1 1/2" in size. This rock will add unique color to your landscaping and pathways.

Smooth White Rock

Smooth small white rocks 1/2" - 1" in size. Very appealing in any landscape.

Pea Gravel

Very small tan/earthtone colored rocks. Great to be used for walkways and flowerbeds.

Grey Stone

All-purpose crushed grey rock. Great rock to use for a base/foundation for patios or in retaining walls.

Blue Quartz

Crushed dark bluish gray rock ranging from 1/2" to 1 1/2" in size, that adds unique color to your pathways and landscaping.

Mushroom Compost

A specially designed select medium which consists of composted straw, sphagnum peat moss, manure, organic carbon, nitrogen, cottonseed meal, soybean meal, potash, gypsum, and dolomite lime for a pH balanced product. This organic based medium contains nutrients that allow plants to thrive. This product is composted for over a year. Available in 40# Bags.

Cotton Burr Compost

An aerobically composted product derived from the cotton plant that provides a coarse material excellent as a planting medium or mulch. Landscapers use Cotton Burr Compost to rejuvenate existing beds. They mix it in the existing soil and top dress it, adding much needed nutrients to gardens and flowerbeds. This rich organic material helps retain moisture in sandy soils. This compost may last up to two full growing seasons, making it very economical. Available in 2 cu ft bags.

Gardeners Secret Garden Soil

A special mix of organic compost, Canadian sphagnum peat moss, pine mulch fines, slow release fertilizer and perlite. This product is great for growing flowers and vegetables outdoors. Also, it is an excellent soil amendment and should be recommended for customers who want to plant trees and shrubs. This product is perfect for just about any landscape project. Available in 1 cu ft bags.

Brilliant Red Aromatic Cedar Mulch

It is a fresh mulch which has been color enhanced and retains a very pleasant fragrance. It has natural insect repelling qualities. It works to lock in the moisture and act as a weed barrier. This is premium long-lasting mulch that adds great beauty to any landscape.

2 cu. ft. bags

Cypress Mulch

Ideal for water retention and prevents soil erosion. Golden in color, it adds luster to any landscape and is great used as a ground cover.

2 cu. ft. bags

Aromatic Cedar Mulch

It is a fresh mulch which retains a very pleasant fragrance. It has natural insect repelling qualities. It works to lock in the moisture and act as a weed barrier. This is premium long-lasting mulch that adds great beauty to any landscape.

2 & 3 cu. ft. bags

Hardwood Mulch

This is a doubleground, native hardwoods mulch, to give a great natural look to you gardens, flowerbeds and pathways. Recommended to mulch 3-4" to help prevent weeds and soil erosion.

Pine Bark Mulch

This is a medium ground pine bark mulch that is great as a groundcover and helps to break up hard-packed soil.

2 & 3 cu. ft. bags

Pine Bark Nuggets

This is medium to large pine bark nuggets. It adds beauty to any landscape and can be used as a ground cover.

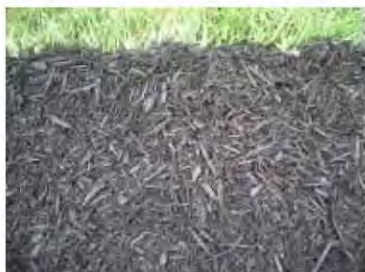

2 & 3 cu. ft. bags

Red Colored Mulch

It is a hardwood mulch that has been color enhanced to a rich red color that does not fade easily. This premium mulch is a great way to add flair to any landscape.

2 cu ft. bags

Black Colored Mulch

It is a hardwood mulch that has been color enhanced to a midnight black. Makes green plants look greener when planted against a canopy of this vibrant mulch.

2 cu. ft. bags

Soils

Mushroom compost is the secret to our soils and professional mixes. This highly organic compost makes all of our soils dark, rich and very fertile for any of your growing needs.

All of our products can be mixed and matched on the same truckload.

Topsoil

Richest Top Soil Available

This topsoil comes from bottom farmland and is a very dark, rich soil. Great to be used for lawns, gardens and flowerbeds. Available in 40# bags.

Potting Soil

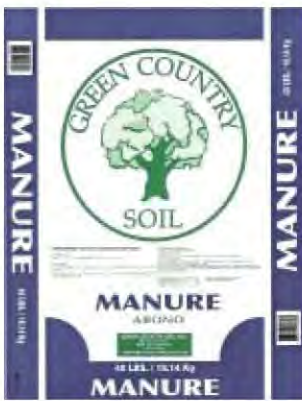

A soil based organic mixture specifically formulated to give plants nutrients. This complete balanced growing medium is great for planting outdoor plants, landscaping, flowerbeds and gardens.

Available in 20# and 40# bags.

Peat Humus

An organic mixture of peat and humus containing valuable nutrients that plants thrive on. May be used as a soil conditioner for lawns, flowers, and vegetable beds. Available in 40# bags.

It is a highly organic barnyard manure. The organic matter provides plants with nutrients as well. Available in 40# bag.

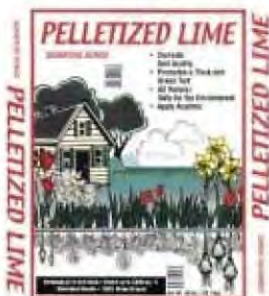

Sphagnum Peat Moss 2.2

Available in 2.2 cu ft and 3.8 cu ft bales, this light, fluffy product has water-holding capacity that makes it a useful potting medium. Used as a mulch, it conserves moisture in the soil and encourages steady plant growth.

Sphagnum Peat Moss 3.8
